

Risk Prioritization & Remediation Roadmap — SkyBridge Digital Services

Priority	Risk / Gap	Related CSF	Severity	Recommended Action	Owner	Target
1	Incomplete MFA coverage	PR.AA-05	Critical	Enforce MFA for critical systems, cloud platforms, M365, and remote access.	IAM Manager	Q3 2026
2	Inconsistent vulnerability scanning and patching	ID.RA-01 / PR.PS-04	Critical	Expand vulnerability scanning and establish patching deadlines based on risk.	IT Security Team	Q3 2026
3	Limited monitoring of cloud and public-facing applications	DE.CM-09	Critical	Improve monitoring of AWS, Azure, and internet-facing applications.	Security Operations	Q3 2026
4	Incident response procedures need testing	RS.MA-01 / RS.MI-01	High	Test response procedures for major incidents such as ransomware and cloud compromise.	Incident Response Team	Q4 2026
5	Recovery procedures are not consistently tested	RC.RP-01	High	Test recovery procedures for critical applications and payment services.	Business Continuity Team	Q4 2026

6	Incomplete asset inventory	ID.AM-01	High	Create a complete inventory of important hardware and cloud assets.	IT Operations	Q4 2026
7	Inconsistent third-party risk assessment	GV.SC-02	High	Classify critical vendors based on their access, importance, and risk.	Vendor Management	Q4 2026
8	Inconsistent access reviews	PR.AA-03	High	Conduct regular reviews of privileged and critical system access.	IAM Manager	Q4 2026
